

Projekt - IntegrationsBrücke - PIB

Psychosocial assistance and support
of people with a migration background and
psychological difficulties

The project IntegrationsBrücke is aimed at people with an immigration background who need psychosocial support. Our professionals are socio-educated psychologists and social pedagogists with an immigrant background who are advising affected and their families on their native language through individual conversations, home visits and guidance in:

- Crisis situations
- Coping with illness and medical treatment
- Mental health counselling
- Securing material situation
- Cooperation with authorities and offices
- Organization of aids, such as financial management and care
- The "Work and Employment"

We accompany in other activities such as self-help organizations, consultations, care facilities, etc.

We offer advice in different languages - Bulgarian, English, German, Finnish, Italian, Macedonian, Portuguese, Romanian, Russian, Swedish, Serbo-Croatian, Spanish - on. If necessary, we use interpretation services.

This offer is free.
